# Billi®

Originating in Australia, Billi has been at the forefront of the instant filtered boiling and chilled water systems industry for over 30 years.

Billi products are celebrated for their combination of functionality, performance and contemporary aesthetics. Proudly Australian-made and designed, Billi products have brought a unique concept of underbench instant filtered boiling, chilled and sparkling drinking water to many countries around the globe.

Manufactured in Melbourne, Australia to strict quality standards, Billi water systems come with an assurance of quality, innovation and sustainability. Incorporating cutting edge eco-technology features and modern designs, Billi delivers solutions that keep pace with the ever-changing needs of its users.

Since 2000, Merquip has been the exclusive distributor of Billi throughout New Zealand. A drinking water industry pioneer, Merquip continues to provide unsurpassed levels of service and support of Billi products to their customers to this day.

Designed and manufactured in **Australia** to the highest quality standards

### AUSTRALIAN DESIGNED & MADE

All Billi boiling & chilled units are designed and manufactured in Australia.

### SPACE SAVING DESIGN

With a focus on space saving, Billi systems have one of the smallest footprints on the market, allowing you to make the most of the valuable underbench space.

### ENERGY EFFICIENT

Billi's unique Heat Exchange Technology enables our systems to achieve substantial energy savings. Our units also feature a standby mode which conserves energy by powering down after 2 hours of non-use.

### SAFE TO OPERATE

Billi's X series dispensers are supplied standard with a safety switch to lock off access to boiling water where needed. The red lock icon demonstrates when the safety switch is activated. Simply touch the sensor switch to release the lock and activate the boiling water. The dispenser will revert to safety mode after a period of non use.

### ECO-INTELLIGENCE TECHNOLOGY

The Billi B5000 & B4000 systems incorporate Eco-Intelligence technology which is a self learning timer allowing the unit to only operate when required. The self learning timer monitors daily usage patterns and even recognises evening and weekend changes in routine to effectively minimise energy consumption.

### ICE BANK TECHNOLOGY

Our Ice bank technology has a chilled reservoir where both sparkling and chilled water supply passes through. In doing so, the dispensed water temperature is consistently chilled, also providing a higher level of carbonation.

### FRESHER SPARKLING TASTE

The Ice Bank technology allows for consistently lower dispense and storage temperatures and a far greater level of CO<sub>2</sub> saturation. The benefit of having an ice bank technology is that our sparkling water simply tastes fresher & better.

### ADJUSTABLE CHILLED TEMPERATURE

A simple adjustable control knob allows the chilled water temperature to be raised to 15°C or lowered to 6°C for perfectly chilled, refreshing drinks. Your desired temperature is reached quickly and maintained efficiently during operation.

### ADJUSTABLE SPARKLING LEVEL

Adjust the level of sparkling to suit your taste, with adjustable controls up to 5 bar of CO<sub>2</sub> pressure.

### UNLIMITED FILTERED WATER

The Billi B3000, B4000, B5000 and Filter Tap ranges all offer a bottomless supply of still filtered water.\*

### CHOICE OF DISPENSER FINISHES

The Billi range offers a variety of dispenser options including our X series and slimline dispensers in a selection of modern finishes. Site specific tapware is available, including an XL Levered dispenser with red & blue coloured levers and braille pads for vision impaired applications.

### COMPLEMENTARY RANGE OF MIXER TAPS

Match the finish of your Billi dispenser with our Standalone Mixer Taps.

### ACCESSORIES

Billi has a range of stylish and functional accessories to match your needs including fonts, risers and tubing extension kits.

### REPLACEMENT FILTERS

All Billi genuine filters come with a digital lockout feature to retain single use integrity and maximum hygiene of your drinking water system. They also have a visual change reminder alarm built into the dispenser display where amber lights will flash repeatedly to indicate it's time to change your filter.

\*Safety time out features and the required filter changes for hygiene still apply.

Chrome XL Levered Dispenser with matching 70mm riser and font

Synonymous with innovation, Billi prides itself on being the leading designer and manufacturer of boiling, chilled, sparkling and still filtered water systems.

Manufactured in Melbourne and in partnership with leading Italian manufacturers, we are uncompromising on quality and dedicated to delivering the most reliable, high performance and stylish products on the market.

The Billi range of products include industry leading technology such as self-locking boiling water safety, ice-bath chilling, space saving underbench footprints and self-commissioning features. This make our units safe and user-friendly for your family, easy to install and energy efficient.

Installing a new Billi product reduces the reliance on disposable plastic bottles which are a significant contributor to landfill & carbon footprint during their manufacturing process. Aside from the environmental benefits, removing plastic bottles from the home also conserves space in the pantry & fridge while providing the ultimate in convenience. Billi also offers a refillable CO2 service plan to aid in landfill reduction.

Billi's energy saving initiatives include high performance polyethylene insulation to maintain set water temperatures, stand-by mode and eco-intelligence modes as well as thermodynamic heat exchange technology to capture and re-use any waste heat energy.

Reduce your environmental impact & save on energy bills. Billi's filtered water systems offer unique power consumption advantages:

- » Thermodynamic heat-exchange technology recovers and reuses heat energy.
- » High performance polyethylene insulation retains water temperature and saves energy.
- » Stand-by mode conserves power during set non-use periods.

#### Replaceable filters & Refillable CO2

Billi now offers a refillable rather than disposable CO2 product, find out more here:

Call Merquip for more details - 0800 636 0 636

# Billi's Environmental Sustainability

## Standard Warranty

All components of the drinking water systems are covered by a 24-month warranty.

## Commitment to Quality

A strong commitment to quality is as important to Billi as style, function and innovation. Recognising the importance of reliability to customers, all Billi water systems are manufactured to strict quality standards.

Every system is designed to provide the highest possible standards of efficiency and energy savings.

## Certifications

Every Billi drinking water appliance is manufactured under a certified quality control system. They have been tested and comply with all relevant standards.

Billi Eco, Eco Sparkling, Quadra, Quadra Sparkling, Quadra Plus, Quadra Sparkling Plus, Billi Sahara and Sahara Plus systems are tested to and comply with; Watermark license number WM-21525, AS3498.

Billi Alpine and Filter Tap systems are tested to and comply with; Watermark license number WM-21882, WMTS105.

BWT filter models 994051, 99052, 994054, 994055, 994056 & 994060 are tested to and comply with; Watermark license number WM-022902

All Billi systems are also tested to AS/NZS 4020; AS1428 Accessibility Design Requirements. Billi is also ISO 9001 Certified Certificate Number QEC11627.

Billi Eco, Quadra and Quadra Plus products are certified Gold Level under Global GreenTag standards.

Billi's range of Filter, Mixer and Sensor taps are Watermarked and licensed under WELS T26065, T26149, T29334, T29342, T29494, T30968, T31455 and T36026.

Billi systems are certified under HACCP PE-972-WAT-1-02.

## Replacement Filters

Periodic replacement of filters is necessary to maintain water quality and ensure optimal health benefits. Genuine replacement Billi filters are available through our website and locally from your approved supplier. Filters MUST be replaced every 12 months as a minimum, in some areas or with high usage it is recommended this is increased to a frequency of 6 months.

All Billi genuine filters come with a digital lockout feature to retain single use integrity and maximum hygiene of your drinking water system. They also have a visual change reminder alarm built into the dispenser display where amber lights will flash repeatedly to indicate it's time to change your filter.

To change your own filter please refer to the link provided below, but for true peace of mind and regular maintenance of your system by an expert why not consider one of our Service Plan offerings overleaf such as a 4 year Service Certificate or a Silver Filter plan?

Visit: [www.merquip.co.nz/billi-how-to-videos](http://www.merquip.co.nz/billi-how-to-videos)

**Easy filter change.**  
Simply swing forward and slide out to replace filter.

### 0.2 Micron Fibron XC® Replacement Filter 994052

Normal Filter Rating | 0.2 Micron  
Filtration Capability | Sediment, Chlorine, Taste & Odour, Parasitic Cysts, Lead  
Flow Rate | 3.8lpm  
Water Pressure | 80 kPa min - 860 kPa max  
Capacity | 30,000 litres (Chlorine reduction)  
Water Temperature | 38°C max. Must not freeze

**SEDIMENT**  
Filters out particles in the water

**CHEMICALS**  
Reduces Chlorine and organic chemicals

**MINERALS**  
Enables minerals to flow through the appliance without allowing scale build up

**CYSTS**  
Removes parasitic cysts giardia and cryptosporidium (994052 & 994060 only)

**LEAD**  
Reduces Lead and heavy metals (994052 & 994060 only\*)

\*Lead Reduction on 994052 + 994060 @ 98.93%

Part Number 994113

# BILLCARE SERVICING

Billi offers the very best in innovation, superior performance and reliability and we back this up with a world class customer service experience ethos. Instant filtered drinking water systems do require service & maintenance and filter replacements to ensure optimal water quality and health benefits.

Billi's service model includes an New-Zealand wide network of trained technicians and service agents being backed up by a technical support team at the point of production. Their expertise and service is technically correct, prompt, reliable and available.

Our commitment is to make that easy for you starting with installation and then looking after you for the life of your product;

## SILVER SERVICE PLAN

Filter replacement plan, performed by a Billi accredited technician. Fixed rate for the duration of your agreement.

## REFILLABLE CO2 FILTER PLAN

Billi now offers customers an environmentally friendly option to rent CO<sub>2</sub> & Regulator packages, with a periodic refill service provided to site.

## 4 YEAR SERVICE CERTIFICATE

All new units are eligible for access to our 'peace of mind plan', that provides 4 years of filter changes and comprehensive service for a fixed annual fee. The Service certificate can be purchased strictly for a period of 60 days from delivery.

## FILTER SUBSCRIPTION

Our DIY offer for the home handy person or on-site maintenance manager. Your chosen filters are delivered to you, within your chosen months for self-installation. Includes 2 filters per year for 3 years.

For more information on our service plans, please contact us via [service@merquip.co.nz](mailto:service@merquip.co.nz)

# HOW TO CHOOSE YOUR BILLI

What are your water needs?

What design will best suit your kitchen?

Do you need a complementary mixer tap for your kitchen?

Optional accessory add ons

If installation over a sink is not an option, choose a matching font for bench top install.

XL Levered Dispenser

## TESTIMONIALS

"The Billi hot & filtered cold tap is by far the more superior product in my experience. There are 4 reasons for this.

Firstly, we love the ease with which the Filter Cartridges - just slot in and click into place for replacement, couldn't be simpler. The second major advantage is the reduced and more efficient unit size that sits underneath in the cabinet below - it takes up far less room than the competitor offering. Importantly, the price point is by far lower, a real no brainer! And lastly, the unit is reliable and looks fabulous. I could not recommend the Billi tap enough. It isn't my first Billi tap, and it won't be my last"

Regina, Vic

"Excellent customer service, from advice, to Sales, installation and beyond. Staff are super friendly, helpful and thoughtful. Really happy with the co-written experience and the end product. I have one happy family especially a young person with different needs. Thanks, so much for going the extra mile for us"

Kerrin, AU

"We absolutely love our Billi boiling and chilled water dispenser. It's so convenient to have instant hot and cold water when you need it. It's also great to have that more uncluttered look in the kitchen, now that we don't need a kettle on the benchtop. The Billi looks classy, but unobtrusive. We've very pleased with our purchase and would recommend this product highly"

Rola, Sydney

"Thank you for providing your expertise and recommendations to help us find a great solution for our drinking water in our busy Newmarket office. Your staff have been incredibly helpful, providing outstanding communication throughout the process, which is important for us in Facilities, so we can keep our staff updated accordingly. We are delighted with our new fit-for-purpose Billi units, thank you."

Vincent, Auckland

"With close to 200 students in our hostel, we never run out of hot or cold water during meal times"

Christine,  
Palmerston North
